

# FOAM INSULATION TAPE

**200460**

1/8" x 2" x 30' Black Polyethylene Foam Insulation Tape

12 per case

## Specifications

<b>Product</b>	Foam Insulation Tape
<b>Application</b>	Hot or cold piping, as well as other commercial and industrial insulation applications. Good for indoor and outdoor use.
<b>Composition</b>	Made of 1/8" thick, lightweight black crosslinked polyethylene foam with synthetic rubber based adhesive on one side covered by white siliconized paper release liner for an easy peel.
<b>Features</b>	<ul style="list-style-type: none"><li>- Easy application</li><li>- Reduces heat loss from hot pipes up to 160°</li><li>- Eliminates condensation from cold pipes</li><li>- Sticks firmly to all metals and to itself</li><li>- Closed cell structure, low K factor</li><li>- Will not dry or crack</li></ul>
<b>Thermal Conductivity</b>	0.035 W/Mk
<b>Water Absorption</b>	< 1%
<b>Ozone Resistance</b>	Excellent
<b>High Temperature Use Limit</b>	Adhesive 176° F (80° C) Foam 212° F (100° C)
<b>Directions</b>	Peel the release liner away from the tape and wrap the tape around the piping.

\* Foam insulation tape should be stored in its box at room temperature for prolonged use.
