

GRAY DUCT TAPE

ET11890 1.88" x 150ft

CONSTRUCTION

Cambridge gray duct tape is a 6 mil duct tape with a polyethylene backed cloth with rubber adhesive. It provides an easy tear and is a good choice for sticking to metal, glass, plastics, and more.

Specification	Units	Average	Test Standard
180° peel adhesion (to stainless steel)	N/IN	≥ 12	GB/2792-1998
Tensile Strength	N/IN	≥ 50	GB/7753-1987
Temperature Resistance	60°C for 2 hours	60	GB/2792-1998

Characteristics: High tensile strength, good moisture resistance, easy to tear, and conforms well to irregular surfaces.

Color: Gray

Storage conditions:

Tape should be stores in temperature 20°C - 30°C, dry 50% - 70% humidity area away from direct sunlight, air conditioner and other heat sources.

Shelf life:

For best performance, use this product within 12 months from manufacturing date.

Surface that the tape is applied to should be clean, dry and free of grease, oil, moisture, dirt and other conditions.

Conforms to Rohs and Reach requirements
